

# **Local Equity Fund**

Fund Factsheet | 30th June 2025

# **Fund Objective**

This fund aims to provide capital growth and create wealth over the long term by investing mainly in listed local equities. The fund is high risk and targets investors with a high risk appetite and a long term investment horizon.

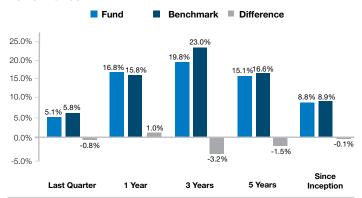

# Strategy

The Bifm Local Equity Fund invests predominantly in listed local equities, with leeway to invest in offshore equities and convertible bonds up to a limit of 20% and 10% respectively.

## Why Choose This Fund?

The fund is appropriate for investors with an appetite for high risk and tolerance for periods of high volatility who wish to generate capital growth over the long term period.

# **Performance**

# **Performance Review**

The Bifm Local Equity Unit Trust Fund returned 5.07% during the second quarter of 2025. The Fund underperformed the benchmark return of 5.85% by 0.78%. Performance over the quarter was primarily driven by the Fund's holdings within the financial services sector. Over a 12-month period, the Fund returned 16.83%, outperforming the benchmark return of 15.83% by 0.99%.

#### **Quartely Commentary**

Performance improved over the quarter, with the local equity market (DCTRI) registering 6.03%. The local equity market performance of 6.03% over the second quarter marked a sharp improvement from the 1.35% return recorded over the first quarter.

The consumer sector was the leading performer over the quarter, led by Choppies, Sechaba and CA Sales. The banking sector also recorded a strong performance over the guarter. The leading performer within the banking sector was Standard Chartered, followed by ABSA. The property sector returned positive results, with Letlole as the best performer. The financial services sector lagged other sectors over the quarter, with Letshego recording a flat performance and BIHL registering a moderate positive return. Dividend payments supported returns over the quarter.

#### Market Outlook

Headline inflation, which began the quarter at 2.8% declined over the quarter to close at 2.00%, which is below the lower end of the 3-6% objective range set by the Bank of Botswana. The decline in Food & Non Alcoholic Beverages as well as the decline in Miscellaneous Good and Services were the main contributors to inflation over the quarter whilst the Transport sector had a negative contribution throughout the quarter. Inflation estimates by the Bank of Botswana show expectations of inflation to remain low into the medium term, averaging 2.5% in 2025, however,this remains largely uncertain owing to the US tariffs which will likely push up global prices.

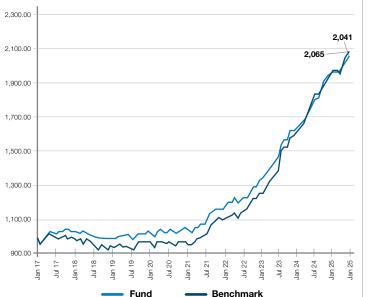

The quarterly GDP release by Statistics Botswana showed a contraction of 0.3% in the real GDP over Q1 2025, compared to a decline of 5.2% in the corresponding quarter in 2024. The contraction in the domestic economy was mainly due to registered declines in the real value added by Diamond Traders,

Water & Electricity, Mining & Quarrying, Agriculture, Forestry & Fishing industries and Transport & Storage. All other industries recorded positive growth of more than 0.1%.

As always, we remain committed to our disciplined, fundamental value approach. We maintain a disciplined approach and continuously integrate new information into our valuation models to ensure our views reflect evolving market dynamics. Our process focuses on identifying both risks and potential opportunities that may impact portfolio performance.

Total Expenditure Ratio (T.E.R.): 2.93%
