Annexure A

Important notes, Terms and Conditions

1. Important notes

- If you are making a once-off Electronic Funds Transfer (EFT) or depositing your lump sum into our Inflow Account, the funds will only be invested once they have been cleared
- Switches will only be processed on cleared units i.e. if the funds used for investment/s have been cleared by the bank
- There is a clearance period of 10 calendar days for switches, lump sum investments and once-off debit orders, and 4 business days for recurring debit orders
- If there's no active recurring monthly contribution on a fund and a switching instruction is received, all units will be switched if the amount remaining after the switch is less than the required fund minimum for the specific fund.
- Should the existing debit order(s) not meet the required fund minimum(s), the debit order(s) will automatically be cancelled.
- It is advisable to first compare the cost structures before you submit the switch instruction. You may need to pay the difference in costs, especially if a switch is made from a fund with a lower cost structure to one with a higher cost structure.
- Please note that a switch may trigger capital gains tax (CGT) and you may be liable to pay tax. If a switch is made between the time the income is declared and the actual payment date, this income declared will be switched, unless you instruct us differently.
- When switching between funds, units are sold in one fund, and with the proceeds from that sale, units are bought in another fund.
- Each fund has a different investment aim and investor risk profile. Switching could impact on your ability to reach your original investment goals. For this reason, it is a good idea to consult with your broker/ sales consultant to review your original motivation for investing and decide whether or not the current investment is still appropriate for you.
- There are risks to investing in any fund. In the case where the fund is too aggressive, the value of the investment may fluctuate too wildly for the investors' purposes in the short-term, although an aggressive fund is likely to give higher returns in the long-term.
- In the case where a fund is too conservative, the investor is likely to have a more stable short-term investment experience, but in the long-term, the fund is unlikely to outpace inflation and grow sufficiently to achieve the desired investment goal.
- The maximum once off debit amount is P1 Million, any once off debit exceeding the maximum amount will be captured in batches.

2. Terms and conditions

2.1 About unit trusts

- When you invest in a unit trust (also called a collective investment undertaking), your money is pooled with the money of other investors. This pool of money is used to buy a portfolio of assets, such as shares (equities), bonds or listed property. As an investor, the value of the units you own is calculated by taking the number of units you own and multiplying them by the latest ruling price per unit. Forward pricing is used. Details of what each fund invests in, as well as its risk profile, are specified in the Minimum Disclosure Documents (fund factsheets).
- The price per unit (excluding money market type funds) goes up and down according to the value of the underlying assets in the relevant portfolio. Neither your capital nor the return of your investment is guaranteed for any unit trust fund investment. For information on unit trusts and how they work, along with our full range of funds and the relevant Minimum Disclosure Documents (fund factsheets), please visit our website at www.bifm.co.bw or alternatively you can call us on (+267) 395 1564.
- Unit trusts are generally medium to long-term investments. Past performance is not necessarily a guide to future performance. Unit trusts are traded at ruling prices and may engage in borrowing. Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio, including any income accrual, less any permissible deductions from the portfolio and divided by the units in the portfolio.
- For money market fund, the price of each participatory interest is aimed at a constant value. While a constant price is maintained, the investment capital is not guaranteed. A money market portfolio and short-term debt portfolio is not a bank deposit. The total return of the investment is primarily made up of interest received. The return may also include any gain or loss made on any particular instrument. In most cases this will merely have the effect of increasing or decreasing the daily yield, but in the case of abnormal losses it can have the effect of reducing the capital value of the portfolio. The daily yield is calculated by taking the daily income earned from dividends and interest, subtracting the expenses at fund level, and dividing it by the current value of all the assets held in the fund. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressures, and in such circumstances, a process of ring-fencing the withdrawal instructions, and managed pay-outs over time, may follow.

2.2 Fees and charges

- A schedule of fees and charges and maximum commissions is available from the fund factsheets:
 - The following charges are levied against the portfolio: brokerage, auditors' fees, performance fees, service fees, applicable taxes, custodian fees, bank charges, trustees' fees and management fees (trailer commission is paid by Bifm Unit Trusts to broker/ sales consultants on a monthly basis; it forms part of the annual management fee charge, which is a fixed percentage per annum that is calculated and deducted daily from the accrued income in the portfolio)

2.3 Transaction cut-off times

- Please make sure you send us your completed instruction (including supporting documents) before the transaction cut-off time. The Botswana business day transaction cut-off times for our funds are:
 - 12:00 for money market funds and,
 - 15:00 for all other funds.
- We can only process your instructions once we have received the correct and accurately completed form and the required supporting documents. If an instruction is issued incorrectly, is unclear, incomplete, or if the supporting documents are not received by the cut-off time, the processing of the transaction will be delayed. Any loss will be for the investors' account or if the supporting documents and the funds are not received by the cut-off time.
- Your transaction will be priced using the ruling price of the fund for the day the transaction is processed i.e. the day we receive all of the required information. Any loss will be for the investor's account.
- If a debit order collection date falls on a non-business day, we will collect it on the first available business day thereafter.

2.4 Ownership, information security and instructions

- We accept that the instructions we receive are correct and signed by the authorised individual or signatories.

2.4.1 Electronic Signatures:

Each party agrees that the electronic signatures of the Client included in this Agreement are intended to authenticate this writing and to have the same force and effect as manual signatures. Delivery of a copy of this Agreement or any other document contemplated hereby bearing an original or electronic signature by facsimile transmission, by electronic mail in "portable document format" ("pdf") form, or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document, will have the same effect as physical delivery of the paper document bearing an original or electronic signature.

Bifm Unit Trusts shall be liable hereunder only for its own gross negligence, willful misconduct or bad faith. The Client agrees to indemnify Bifm Unit Trusts and save it harmless against any and all liabilities, including judgments, costs and reasonable counsel fees, for anything done or omitted by the Bifm Unit Trusts from use of the Client's electronic signature, except as a result of Bifm Unit Trusts' gross negligence, willful misconduct or bad faith.

2.5 Unclaimed assets and how they affect you

An unclaimed asset is any unit trust investment on which there have been no transactions for ten years, or in the case of a deceased estate, more than three years have passed since we have received the notice of death. Our policy is to continue reinvesting all income distributions (interest) until the unit trust is sold, regardless of the time frame.

We follow a process of tracing investors or beneficiaries on any unclaimed assets. Any reasonable administrative costs incurred to trace the investor may be recovered from the value of the portfolio, thereby reducing the value of your investment. Tracing will cease where the value of the unit trust investment is less than P1000 and the costs of tracing exceeds the benefit of tracing.

Please note that to prevent your investment becoming an unclaimed asset, it is your responsibility to inform us of any change in your personal information.

2.6 Update your personal details

It is your responsibility to keep us informed of any changes in your banking details, personal information or current identification information (e.g. change of address, change of surname and contact details). If any of your details have changed, you will need to complete an Investor Details Update form available from www.bifm.co.bw
